The Importance of Spanish Today

The Spanish language is the most widely spoken Romance language, both in terms of number of speakers and the number of countries in which it is the dominant language.

There are more than 400 million Spanish speakers worldwide. Pronunciation and usage of the spoken Spanish language naturally vary among countries, but regional differences are not so great as to make the language unintelligible to speakers from different areas. Contrary to popular belief, there is no such thing as a single spoken “Spanish”. There are different Spanish dialects because of the evolution of the Spanish language in different regions.

DELE

DELE (Diplomas de Español como Lengua Extranjera) is an official qualification certifying the degree of competence and mastery of Spanish granted by the Instituto Cervantes on behalf of the Ministry of Education, Culture and Sports of Spain.

The DELE is recognized worldwide by public and private educational institutions, governments and corporations. There are 6 levels of the DELE diplomas: A1, A2, B1, B2, C1 and C2. The A level is the most basic and the C level is the most advanced.

The test is written for all the different variants of the Spanish language. They are all considered valid to obtain the diploma.
